EVERYONE'S WEDDING

DOOR Princess Margaret! Sho has been hounded and pestered and bothered badgered ever since she announced her engage-London newspapers the been worst offenders. Admittedly everywants to read about royal wedding, the preparations being made for it and those who are taking part. But when a newspaper begins to suggest who the Princess should invite and how she should arrange the ceremony, that's going too far.

This is admittedly a Royal occasion. But it is also a privato affair, an event which Princess Margaret like any other bride wants to share with her husband. and their families and friends. If she wants to avoid a screaming, chaotic stampede which has been a feature of so many other celebrities' weddings, who can blame her? In fact precisely because they avoid cheap vulgarity her plans will win widespread admira-

RITISH newspapers claim the night to interfere because the wedding is costing £20,000 of taxpayers' money —but take that argument to | tection. an extreme and the British taxpayer would also have a be the Princess's husband. No one is foolish enough to suggest that and Princess Margaret probably feels that she would rather foot the whole bill herself than have people tell her how to run her own wedding.

As it is the whole proceedings will be shown over television. And the BBC will be reporting the procession and ceremony every inch of way. Besides the Princess and her husband will drive in state from the Abbey back to Buckingham Palace through ceremonial arch-covered streets where thousands will be to see them. The coption is to be privateand properly so. In their almost childish enthusiasm for the Royal Family some British people seem to forget that the Princess also has a private life in which they have no right to intrude.

IF the Princess and her husband want to dodge all the ballyhoo of squealing, cheering crowds moment they step Buckingham Palace after the wedding, who, having enjoyed the quiet good tasta and comparative privacy of their own wedding, will blame her? And if as the Sunday Pictorial reports that after her honeymoon Bettle wants to · quietly Armstrong-Jones that is also perfectly understandable. She has lived goldfish bowl for 30 years. There are three in line of succession to the throne before her and if now she prefers to keep in the background, the British people should respect her

As for Hongkong's \$50,000 gift-which works out at less than two cents per head population—it would have been in better taste if querulous correspondents had resisted the impulse to complain until Princess Margaret had expressed her wish. She could ask for a golden rose bowl or a silver : casserole dish but surrounded as sho is with priceless trensures like the crown jewels and other exotic royal trappings, we doubt if she would be happy with a present like that. Let's leave it to Margaret's good mense to say how the money should be spent.

TOLL

Tehoran, Apr. 25, The earthquake which levelled the Iranian city of Lar killed about 700 people and injured

several thousand, Dr Husseln Khatibi, Iranian Red Cross Director, who made the estimate, said he believed early official estimates of 1,200 to 1,500 were exaggerated. He said more than \$80 bodies - have been recovered and buried.-AP.

The 85-year-old President Rhee, the first and only President this Republic has ever had, gave in completely to an angry populace which had carried off wild demonstrations over the last week at a cost of nearly 150 lives.

In the face of the latest rioting touched off by a march of 150 of the nation's most respected educators, President Rhee finally bowed and made a four-point statement which appeared to answer virtually all of the demands of the angry demonstrations.

Wild cheers

The students who had won what virtually was a "students' revolution" broke out into wild cheering upon hearing the President's statement. Only moments before they had captured four army tanks and had threatened to storm the presidential mansion of Kyung Mu-Dae. In addition to this promise to retire—"if"—President

Rhee also pledged: That his controversial, heir-apparent, Lee Kipoong, speaker of the National Assembly, Vice-President-Elect and the actual power behind the hated National

judge today discharged Police, would resign from all public offices. • That there were "many irregularities" in the trial of three men charged | March 15 elections and therefore he had ordered new with a London gangiand balloting, apparently for both President and Vice-President.

• That he would offer a constitutional amendment calling for the creation of a parliamentary-cabinet type of government.

U.S. pressure

President Rhee's statement came shortly after an urgent conference at his hillside mansion with U.S. Ambassador Walter P. McConaughy and United Nations commander, Gen. Carter B. Magruder.

It was clear that he acted under considerable pressure from the United States which only this morning issued a new statement calling upon the Government of which makes it impossible for Korea to make amends for the "justifiable grievences" the case to be continued for which touched off the angry demonstrations which have raged sporadically since the March 15 election day.

The scope of President Rhee's announcement left little room for the opposition Democratic Party to make further complaint. On the personal side, there was no doubt that the resignation of Lee Ki-pong would be greeted with the greatest enthusiasm..

Churchgoer

Though he is a devout churchgoer, a leader in the Boy-Scout Movement and head of the Korean Olympic Committee which is dedicated to the principles of fair play, the 63-year-old Lee also was the man who actually ran the National Police which has been accused of wide-

spread brutality. He also was the master politician who ran the Liberal Party and was widely accused of being the man behind the allegedly rigged March 15 elections.

President Rhee's announcement came as no surprise to many in Seoul who believed that he eventually would be forced to bow to the angry, mounting public pressure. But the speed with which the announcement came surprised some who believed that the President would

hold out longer and hope for the situation to calm down. It was believed that the spectre of the military may have been responsible. For, as the demonstrations increased in strength. anger and determination, there had been growing talk of the military taking over to ease the crisis. This is in fact

in best Asian tradition. Burma, Thailand and Pakistan are examples.

Newspaper extras

Newspapers put out immediate extras. Old time residents said there had not been such wild scenes of joy in Korea since the nation was liberated from the Japanese in 1945. People were hugging and dancing with perfect strangers.

The crowds roared in approval. The tension relaxed. But the mobs continued marching from the Capital Avenue singing the National Anthem and waving flags. Troops, who had held them back only for a few moments, retreated slowly for the marchers and soon formed two column ranks and marched in front of the

crowd all the way to the Capitol Building. President Rhee's statue in Pagoda Park was toppled | The death occurred late on by the demonstrators.

New shooting

The mob, which numbered at least half a million, continued to press toward President Rhee's mansion and new shooting broke out. Most of the shots either were blanks or real bullets fired into the air. No wounded

could be seen: After the announcement, however, it was a happy mob, but it was in no mood to break up. At the Capitol grounds, the crowd hesitated in front of huge barbed hospital, wire barricades. But soon thousands of demonstrators broke away and climbed over huge fences and rushed

behind the barrleades. It appeared that almost every one in Scoul's two million population had joined in the wild demonstration and inbliation.—UPI.

Citizens of Seoul reach for extras reporting Vice-President John M. Chang's resignation in protest against the March 15 Presidential elections, which his democratic party charged as rigged.

Extras also reported that Vice-President Elect Lee Ki-poong would resign in face of public criticism of the elections, which led to the recent bloody uprising. - AP Photo.

.S. Skybolt to replace Bluestreak

London, Apr. 25.

Britain today was authoritatively reported to favour the American Skybolt rocket as the most likely weapon to replace the abandoned British Bluestreak missile.

British interest in the airborne Skybolt is in preference to the American Polaris missile, designed to be fired from atomic submarines.

A final decision has been deferred for the time being at least until after the U.S. visit of the Defence Minister, Mr Harold Watkinson, late in May or early in June.

But there were mounting indications today that the government is tending in principle toward the Skybolt because it is cheaper, and because it would be supplied by the U.S. directly to Britain instead of through Nato-channels.

A full dress parliamentary debate has been scheduled here for Wednesday in which the Government will face heavy

attacks from the Labour opposition over the Bluestreak, developed at an expense of some £100 million and officially abandoned as a weapon a week ago.

But having dropped the costly project Britain has already in principle decided to get American missiles instead. She has not yet finally made up her mind however on the type of rocket she wants to adopt as a vehicle for her own nuclear warheads.

The first inclination was to favour the sea-borne Polaris which the U.S. success-

fully tested earlier this month. But government experts have had second thoughts in the past few days which shifted the interest to the Skybolt.

What makes the Skybolt more attractive is that it can be launched from Britain's existing bomber flect. The range of the missile is between 1,000 and 1,200 miles and it could be launched from a plane while it is still outside the range of enemy defences.-UPI.

Egyptian Ike-De Gaulle agreement boycott ships

Cairo, Apr. 25. Egyption dockers decided today to boycott American ships at Alexandria, Port Said and Suez as from the night of April 29, Cairo radio an-

But an Arab trade union spokesman said the Sucz Canal will be kept open for American ships despite the boycott. The spokesman made the statement in the name of the International Confederation of Arab Trade Unions.
The Confederation has voted to beyentt. American ships unless picketing of the Egyptian freighter Cleopatra in New York ends by Saturday.

CANAL TRANSIT

As plans now stand, the spokesman said, American ships will not be hindered in transit through the canal.

He said no measures were contemplated even to make it difficult for American ships to use the canal, such as denying them mooring facilities. The spokesman said at the moment, workers envisage the boycott of American ships along the same lines as now applied to ships blacklisted by the Arab League Boycott Office for deal-ing with Israel,-AP.

Easter in Sydney is of course always synonymous with the Royal. Show.

And this one had a number of interesting features. For example it was the first for Australia's new Governor General. Lord Dunrossil.

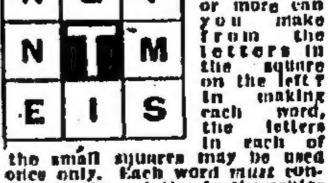

He paid two visits to the show -once to see around the exhibits and again to watch - the ringevents and wood chopping. But perhaps the most memorable thing he did was to have a "shave" by leading Australian axeman. Doug Youd of Tasmania (see pic-

TT needs the plumed, lethal pen of Oscar Wilde himself to do full justice to the present situation in British film studios, where two rival films are being made about his life and trial.

I will do my best with the equipment I have. One version stars Peter Finch as Wilde and is produced by Irving Allen, who descended on us from Hollywood several years ago, and who has until now shown scant interest in anything which could be described as literature.

The other has Robert Morley as Wilde and is directed by the improbable but solidly real Gregory Ratoff who claims that he was reading "The Ballad of Reading Gaol' in Russian when he was a boy in St Petersburg. You may well ask why two companies should decide to tackle the same difficult, somewhat esoteric, subject simultaneously.

The answers, which I have dulity, make me thankful that would make his own film indeno longer devote all my pendently. journalistic time to the show business swamp.
